

Odourless fabric and fresh feel is what Novus yarn has to offer. Silver based anti-microbial agent present in the fabric instantly destroys bacteria that tend to develop in the moist and warm places in the body. It gives a pleasant and hygienic feeling. The anti-bacterial agent is effective against most common strains of bacteria. The anti-bacterial agent is present in the polymer itself so it is stable against normal cycles of washing and ironing.

Features:

- ❖ Anti-bacterial yarn
- ❖ Odourless fresh feel
- ❖ Hygiene
